## 1. Qualitative Information on Consolidated Results for the Current Period

# (1) Explanation of Operating Results

### (i) Overview

During the current consolidated fiscal year, the Japanese economy saw a moderate recovery, supported by improvements in employment and income conditions, despite some stagnation in consumer spending due to inflation. However, the outlook remains uncertain due to the prolonged geopolitical risks in Ukraine and the Middle East, as well as a clear slowdown in the Chinese economy.

In light of this situation, during the third year of the Medium-term Management Plan (2022-2026), we promoted the Smart Salon initiative to strengthen the infrastructure for hair salon customers to purchase take-home products at salons and expanded the user base of milbon:iD. We also implemented strategies targeting the domestic hair color market, such as proposing a total color service for hair and eyebrows unique to salons, and offering high-value-added in-salon coloring menus for adults featuring the organic brand, Villa Lodola.

Consolidated net sales for the fiscal year were 51,316 million yen (up 7.4% year-on-year). This growth was primarily driven by the strong domestic performance of the premium haircare brand Aujua and the professional brand Elujuda. Additionally, the proposal of high-value-added in-salon coloring menus led to an increase in hair salons introducing Villa Lodola, which shows signs of recovery in domestic sales of hair coloring products. The total color proposal for hair and eyebrows also contributed to sales growth, with the new product from the cosmetics brand IM exceeding sales expectations. Internationally, sales in South Korea saw a significant boost due to enhanced activities in the haircare and perm markets, along with a recovery in hair coloring product sales. As a result, the sales growth rate remained high, driving an overall growth in overseas sales.

Regarding profits, the gross profit margin improved due to the rebound from inventory valuation losses on hair dryers recorded the previous year. Additionally, profit levels recovered through decreased SG&A expense ratios due to higher sales and enhanced control of SG&A expenses. Consequently, operating income amounted to 6,839 million yen (up 23.8% year-on-year), ordinary income was 6,968 million yen (up 24.7% year-on-year), and net income attributable to owners of the parent was 5,017 million yen (up 25.4% year-on-year).

Net sales by item and net sales by domestic and foreign country are as follows. [Breakdown of net sales by product category]

## (ii) Outlook for fiscal year 2025

While continued price increases may impact consumer spending, we expect a moderate recovery in the domestic economy to continue, supported by ongoing improvements in employment and income environments. On the other hand, we need to remain cautious about trends in overseas markets, particularly in China and the United States. We anticipate continued uncertainty due to prolonged inflation in the United States, ongoing conflicts and geopolitical risks, and their impact on consumer sentiment.

The Company will enter the fourth year of the Medium-term Management Plan (2022-2026) in fiscal year 2025. Considering the current cost structure, we have announced a downward revision of our profit targets in fiscal year 2026, as well as the development and implementation of measures to improve profitability. Under such circumstances, we will reassess investment priorities in the seven regions of the overseas market, focusing on the United States., the EU, and South Korea, where we see significant growth opportunities, and strengthen our activities in these areas. In fiscal year 2025, we particularly plan to focus on strengthening personnel and product branding in the United States.

In the domestic market, we will continue promoting Smart Salon initiatives and milbon:iD to realize the Beauty Platform Plan, which aims to create a new normal for hair salons, thereby strengthening the infrastructure for purchasing take-home products. Furthermore, to achieve high-value-added and high-priced service menus in salons, we will continue the high-value-added hair color strategy and promote technical training support based on entry-level training and Sommelier education to enhance the expertise of hair stylists. By advancing high-value-added and high-priced services in salons, we will maximize the effectiveness of Smart Salon and milbon:iD. By advancing high-value-added and high-priced services in salons, we will maximize the effectiveness of Smart Salon and milbon:iD.

For the next fiscal year, we forecast consolidated net sales of 54,250 million yen (up 5.7% year-on-year), operating income of 7,000 million yen (up 2.3% year-on-year), ordinary income of 7,000 million yen (up 0.5% year-on-year), and net income attributable to owners of the parent of 5,200 million yen (up 3.6% year-on-year).

# (2) Explanation of Financial Position

## (i) Assets, liabilities and net assets

Total assets at the end of the fiscal year increased 5,507 million yen from the end of the previous fiscal year to 58,899 million yen.

Current assets increased by 4,757 million yen from the end of the previous fiscal year to 30,935 million yen. The main factors for the change were increases of 2,492 million yen in Cash and deposits, 692 million yen in Notes and accounts receivable - trade, and 876 million yen in Merchandise and finished goods.

Non-current assets increased by 749 million yen from the end of the previous fiscal year to 27,963 million yen.

Current liabilities increased by 2,640 million yen from the end of the previous fiscal year to 9,208 million yen. The main factors for the change were increases of 880 million yen in Accounts payable - other and 818 million yen in Income taxes payable.

Non-current liabilities decreased by 17 million yen from the end of the previous fiscal year to 873 million yen.

Net assets increased by 2,884 million yen from the end of the previous fiscal year to 48,817 million yen. The main factors for the change were increases of 2,153 million yen in Retained earnings and 865 million yen in Foreign currency translation adjustment due to the depreciation of the yen.

As a result, the equity ratio changed from 86.0% at the end of the previous fiscal year to 82.9%. Net assets per share based on the total number of shares outstanding at the end of the fiscal year was 1,499.20 yen, up from 1.411.56 yen at the end of the previous fiscal year.

## (ii) Cash flows

Cash and cash equivalents (hereinafter referred to as "funds") at the end of the fiscal year increased by 2,486 million yen from the end of the previous fiscal year to 13,778 million yen.

The status of cash flows during the current fiscal year and the factors responsible are as follows.

(Cash flows from operating activities)

Net cash provided by operating activities was 7,625 million yen. This was mainly attributable to Profit before income taxes of 6,968 million yen, Depreciation of 2,289 million yen, an increase in notes and accounts receivable-trade of 646 million yen, an increase in inventories of 1,053 million yen, and Income taxes paid of 1,112 million yen.

(Cash flows from investing activities)

Equity ratio based on market value: Total market capitalization/Total assets Interest-bearing debt to cash flows ratio: Interest-bearing debt/Cash flows

- \* All indicators were calculated using consolidated financial statements.
- \* Total market capitalization was calculated by multiplying the closing stock price at the end of the period by the total number of outstanding shares at the end of the period (excluding treasury shares).
- \* Cash flows were shown as an operating cash flow in the consolidated statements of cash flows.
- \* Interest-bearing debt refers to all debt posted in the balance sheets upon which interest is paid. The amount of interest paid in the consolidated statements of cash flows was treated as an interest payment in the calculations above.
- \* Interest-coverage ratio is not shown due to the fact that there were no interest payments.

# (3) Basic policy on the distribution of profit and dividends for the fiscal year under review and the following fiscal year

The Group places high importance on returning profits to shareholders and has a policy of paying dividends in accordance with operating results. We also maintain internal reserves to improve earnings in the future. In addition, we have set a target payout ratio of 50%. The Board of Directors determines interim dividends, while year-end dividends are determined by the General Shareholders' Meeting. We aim to pay dividends twice each fiscal year.

For the current fiscal year, we have decided to pay a year-end dividend of 48 yen per share, based on a comprehensive consideration of factors including our financial position and profit level. As a result, the total annual dividend per share will be 88 yen per share, including the interim dividend of 40 yen per share already paid, the same as in the previous year.

Looking ahead, for the next fiscal year, we plan to pay an annual dividend of 88 yen per share, which is the same amount as for the current fiscal year.

# 2. Basic Rationale for Selecting the Accounting Standards

The Milbon Group currently prepares the consolidated financial statements according to the generally accepted accounting standards in Japan (Japanese GAAP), taking into consideration the comparability of consolidated financial statements over different periods and among other companies.

With regard to adoption of International Financial Reporting Standards (IFRS), it is the Group's policy to respond to this issue appropriately based on consideration of various domestic and international circumstances.

# 2 Matters regarding application of equity method

Number of associates accounted for by the equity method: 1

Names of companies, etc.

KOSÉ Milbon Cosmetics Co., Ltd.

## 3 Matters regarding the fiscal year, etc. of consolidated subsidiaries

The account closing date of consolidated subsidiaries are the same as the consolidated account closing date.

- 4 Matters regarding accounting policies
  - (1) Valuation standards and methods for significant assets
    - (i) Securities

Available-for-sale securities

Other than shares, etc. without market price

Stated at market value (unrealized gains and losses are reported as a separate component of net assets, and cost of sales is calculated by the moving-average method)

Stocks, etc. without market price

Stated at cost using the moving-average method

## (ii) Inventories

Merchandise, Finished goods and work in process, Raw materials, and Supplies

Stated primarily at cost using the weighted average method (the balance sheet value is calculated using the inventory write-down method based on decreased profitability)

- (2) Depreciation and amortization methods for important depreciable assets
  - (i) Property, plant and equipment

They are depreciated using the straight-line method.

Estimated useful lives of major asset items are as follows:

Buildings and structures 2-50 years

Machinery, equipment and vehicles 2-17 years

# (ii) Intangible assets

They are amortized using the straight-line method.

Software for internal use is amortized using the straight-line method over the estimated period of internal use (2 to 5 years).

## (3) Accounting standards for major allowances

#### (i) Allowance for doubtful accounts

To prepare for losses arising from uncollectible receivables, the Company and its overseas consolidated subsidiaries record an allowance for doubtful accounts at an estimated uncollectible amount based on the historical rate of credit losses with respect to general receivables, and in consideration of individual collectability with respect to doubtful accounts and other specific receivables.

## (ii) Provision for bonuses

To provide for payment of bonuses to employees (including those for employees also serving as executive officers), the Company and its overseas consolidated subsidiaries record a provision for bonuses based on the estimated payment amount

## (4) Accounting method for retirement benefits

(i) Method of attributing expected retirement benefits to periods In calculating retirement benefit obligations, expected retirement benefits are attributed to the period up to the end of the current fiscal year based on the benefit formula basis.

### (ii) Method of amortizing actuarial differences and past service costs

Actuarial differences are amortized using the straight-line method over a certain number of years (5 years) within the average remaining period of service of the corresponding employees at the time of the occurrence, starting from the fiscal year following the occurrence.

Actuarial gains and losses are amortized using the straight-line method over a certain number of years (5 years) within the average remaining years of service of the eligible employees at the time of occurrence, starting from the fiscal year following the occurrence.

## (iii) Adoption of simplified method in small companies, etc.

Certain overseas consolidated subsidiaries apply a simplified method to calculate net defined benefit liability and retirement benefit expenses based on the method where the amount of retirement benefits to be paid for voluntary retirement at the end of the fiscal year represents the amount of retirement benefit obligations.

# (5) Accounting standards for significant revenue and expenses

The principal performance obligations relating to revenue from contracts with customers of the Company, as well as the standard point at which such obligations are satisfied (i.e., the point at which revenue is recognized) are explained as follows. The Group is engaged in the manufacturing and sale of cosmetic products. In terms of the sale of such goods or products, revenue is recognized upon delivery of the goods or products to customers. However, revenue is recognized at the time of shipment if the period from the time of shipment to the point at which control of the goods or products is transferred to the customer is the standard period.

Revenue is measured by the amount of consideration promised in the contract with the customer, less any applicable rebates and returns.

The transaction consideration is typically received within one month of the fulfillment of the performance obligation and does not contain any significant financial elements.

(6) Translation standards of significant assets and liabilities denominated in foreign currencies into Japanese yen
Foreign currency denominated monetary receivables and payables are translated into Japanese yen at the spot exchange rate
on the consolidated closing date, and foreign exchange gains and losses from translation are recognized as profit or loss. The
assets and liabilities of overseas consolidated subsidiaries are translated into Japanese yen at the spot exchange rate on the
local account closing dates of overseas consolidated subsidiaries, while revenue and expenses are translated into Japanese yen
at the average exchange rate for the period, and foreign exchange gains and losses from translation are recorded in foreign
currency translation adjustment under net assets.

# (7) Scope of funds in the consolidated statements of cash flows

Funds (cash and cash equivalents) in the consolidated statements of cash flows comprise cash on hand, deposits available for withdrawal as needed and short-term investments due for redemption within three months from the date of acquisition, which

are easily cashable and are subject to minimal risk of fluctuation in value.

(Note on segment information, etc.)

Segment information

This information is omitted since the Group has a single segment of manufacture and sales of cosmetic products.
