Villa Lodola Nationwide Launch — May 2013

Beauty the organic way
Nurtured in the soil of Italy, these *gifts of nature*
bring out the authentic beauty of the hair and scalp
Professional Organic Hair Care

Consumer needs in Japan tend increasingly toward natural products. As Japan's beauty market intensifies its demand for use of eco-conscious and naturally-derived materials, Milbon has continued to develop and expand Villa Lodola, salon-exclusive organic product line—previously limited release only available in the Kanto region—across the entire nation.

This year, we aim to offer Villa Lodola products in 2,000 stores, with projected sales of 200 million yen.

About Villa Lodola

Villa Lodola is an organic hair care brand created by renowned manufacturer Kemon (in Umbria, Italy), designed for professional use and loved in more than 15 countries across the world.

All ingredients have passed strict examinations by organic certification organizations, and all products are certified by ICEA—Europe's representative organization for organic certification.

In addition, care for the environment has been thoroughly implemented not only in the products, but also the manufacturing processes, containers, and development tools for this internationally certified and authentically organic hair care brand.

What is ICEA?

ICEA is an international organic certification organization based in Italy, which certifies environment-friendly producers, consumers, and product/service development—from cosmetics and food through to architecture and more.
