1. Qualitative Information on Consolidated Results for the Current Period

(1) Qualitative information on consolidated operating results

During the nine month period ended September 20, 2015, the Japanese economy continued on a moderate recovery track, highlighted by a recovery in domestic investment supported by the upturn in corporate earnings and other factors, as well as the improvement trend in both household income and the employment environment. However, the outlook has become uncertain due to factors including a weakening of exports to regions such as Asia and the U.S., as well as the correction in stock markets triggered by concerns about an economic slowdown in China. In the beauty industry, amid the challenging conditions with demographics making it tough for salons to bring in customers and hire new staff, salons are having to broadly meet diversifying customer needs.

Amid this environment, the Milbon Group believes that it is important to respond to the needs of women in their 40s, the core customers of salons, as well as women in their mid-20s, whose understanding of beauty is beginning to change. Efforts are being focused on salons with the goal of “raising the level of expertise of professionals and supporting higher productivity in order to respond to women, who continue to shine in society, from those awakening to beauty to those with heightened beauty needs.”

Consolidated net sales during the nine month period ended September 20, 2015 increased to 19,978 million yen (up 8.4% year-on-year). In the hair care product category, the increase was largely due to solid sales of hair care products containing Milbon’s original keratin restoring ingredient CMADK, including Jemile Fran, a new hair care brand for working women in their 20s which was launched in May. In the hair coloring product category, Ordeve Crystal, the hair coloring product line specialized for gray hair which launched in June and allows women with long hair to beautifully color their hair, saw steady sales. Favorable sales growth of overseas subsidiaries, centered on East Asia, was another factor for the increase in overall sales, as proactive activities, primarily education in salons, resulted in an increase in transactions with leading salons.

Operating income was 3,787 million yen (up 17.8% year-on-year), ordinary income was 3,594 million yen (up 18.1% year-on-year) and net income was 2,331 million yen (up 26.3% year-on-year).

Breakdown of net sales by product category and breakdown of net sales into domestic and overseas sales are shown below:

(2) Qualitative information on consolidated financial position

Total assets at the end of the nine month period ended September 20, 2015 increased by 1,473 million yen compared to the end of the previous fiscal year to 29,612 million yen.

Current assets increased by 675 million yen compared to the end of the previous fiscal year to 14,983 million yen. This was mainly due to the 2,999 million yen increase in securities (jointly managed designated money trusts, etc.), the 708 million yen increase in merchandise and finished goods, the 2,849 million yen decline in cash and deposits, and the 375 million yen decline in notes and accounts receivable - trade.

Non-current assets increased by 797 million yen compared to the end of the previous fiscal year to 14,629 million yen. This was due mainly to the 411 million yen increase in land in conjunction with the purchase of land adjacent to the Yumegaoka Plant and an increase of 280 million yen in investment securities attributable to factors such as higher prices of listed stocks.

Current liabilities decreased by 85 million yen compared to the end of the previous fiscal year to 3,783 million yen. This was mainly due to the 505 million yen decrease in accounts payable - other, the 167 million yen decrease in income taxes payable, the 312 million yen increase in accounts payable - trade, and the 282 million yen increase in provision for bonuses.

There were no significant changes in non-current liabilities from the end of the previous fiscal year.

Net assets increased by 1,515 million yen compared to the end of the previous fiscal year to 25,619 million yen. This was due mainly to the increase of 1,165 million yen in retained earnings and the 209 million yen increase in valuation difference on available-for-sale securities attributable to factors such as higher prices of listed stocks and the 159 million yen increase in foreign currency translation adjustment due to the weakening of the yen.

As a result, the equity ratio changed from 85.7% at the end of the previous fiscal year to 86.5%. Net assets per share based on the total outstanding shares as of the end of the period under review increased from 1,472.10 yen per share at the end of the previous fiscal year to 1,564.76 yen per share.

(3) Qualitative information on consolidated operating forecasts

In terms of the full-year forecast there are no changes to the previous consolidated operating forecasts, which were announced on January 21, 2015.

(3) Changes in accounting policies, changes in accounting estimates and retrospective restatements

(Changes in accounting policies)

(Application of the Accounting Standard for Retirement Benefits, etc.)

Regarding the “Accounting Standard for Retirement Benefits” (ASBJ Statement No. 26, May 17, 2012) and “Guidance on Accounting Standard for Retirement Benefits” (ASBJ Guidance No. 25, March 26, 2015), effective from the first quarter ended March 20, 2015, the Company has applied the provisions of the main clauses of Paragraph 35 of the Accounting Standard for Retirement Benefits and Paragraph 67 of Guidance on Accounting Standard for Retirement Benefits, reviewed its calculation method for retirement benefit obligations and current service costs, and changed its method of attributing expected benefits to periods from the straight-line basis to the benefit formula basis. In addition, the Company has changed the method for determining the discount rate from a method based on a period approximate to the expected average remaining working lives of employees to a method that uses a single weighted average discount rate reflecting the estimated timing and amount of benefit payments.

Application of the Accounting Standard for Retirement Benefits and Guidance on Accounting Standard for Retirement Benefits is in line with the transitional measures provided in Paragraph 37 of the Accounting Standard for Retirement Benefits, and the effect of the revision to the calculation method for retirement benefit obligations and current service costs has been added to or deducted from retained earnings as of December 21, 2014.

As a result, as of December 21, 2014, net defined benefit asset decreased by 55,973 thousand yen and retained earnings decreased by 36,103 thousand yen. The effect of the revision on operating income, ordinary income and income before income taxes and minority interests for the nine month period ended September 20, 2015 is immaterial.
